REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Lee:

Lee maintains 3 one-room schools. Last year the total registration was 64, of whom 33 boys and 29 girls entered in Lee. The schools were in session 356 half-days, with an aggregate attendance of 18,955 half-days. The enrollment by grades was 8 first, 7 second, 8 third, 7 fourth, 6 fifth, 7 sixth, 10 seventh, and 9 eighth. Of the 58 pupils in school at the end of the year, 56 were promoted and 2 retained. The average September age in years and months by grades was as follows: First 6-3, scond 7-7, third 7-9, fourth 9-7, fifth 11-8, sixth 12-7, seventh 13-2, eighth 13-5. Eighteen were between 5 and eight years of age, 35 between 8 and 14, 9 between 14 and 16. The average attendance was 53.23, average absence 2.83, average membership 56.06, and per cent of attendance 94.95. There were 86 sixth of tardiness; but 8 pupils were not absent nor tardy during the year. The School Board held 10 meetings and made 16 recorded visits to the schools. Other visits included 67 by the superintendent and 271 by citizens. The District paid tuition for 1 elementary pupil and 21 in high schools. High school tuition pupils this year include 7 in Dover, 10 in Newmarket, 1 in Exeter, and 1 in Laconia. The present enrollment in Lee is as follows:

School	*Teacher*	*Membership*
North	Miss Dorothy Gibb	31
Center	Mrs. Mina F. Sanders	12
South	Miss Pauline M. Wiggin	22
	Total	65

Of the 11 children 5-16 years of age not attending school, 7 are under 8 and 3 others have passed the eighth grade. Eight tuition pupils are enrolled from outside the district.

Last year, in the course of her examination of the pupils, the School Nurse discovered the following physical defects: Underweight (10%) 8, defective vision 2, defective teeth 30, diseased tonsils 12, defective breathing 7. Thirteen of these defective conditions were corrected with the co-operation of parents, nurse, and doctors. Eleven cases including 5 varieties of communicable diseases were investigated by the nurse. This year, with the aid of the Federal Child Health Recovery Program, 2 pupils have been fitted with glasses, 16 treated in the dental clinic, and 3 in tonsil and adenoid clinics, all of whom would probably have been unable to secure treatment otherwise.

During the year a good driven well, 96 feet deep, has been provided as a convenient source of pure water at the Center School. One more well at North Lee will complete the project of giving a satisfactory water supply to all the schools. The next equipment project to be undertaken should be to furnish the schoolyards with playground equipment. A moderate appropriation, spread over three years, would be a permanent investment paying ample dividends in health, enjoyment, and character.

This year marks the 300th anniversary of the Boston Latin School, the first American high school, and reminds the world that the determination to banish ignorance and to impart saving knowledge to the rising generation is an integral part of the New England conscience. In this heritage Lee shares.

Respectfully submitted,

CHESTER W. DOE,

Supt. of Schools.
